Deschamps

Deschamps (St. Raphael, France) is announcing its rotating-arm flagpoles for vertical banner installations. The system comprises roller bearings that permit hoisting banners from the ground onto a halyard situated inside the pole. Deschamps manufactures the poles through a hot-molding process that implements a fiber-reinforced, glass composite.

Phone: (33) 494-95-0436; fax: (33) 494-95-3585; www.mats-deschamps.com; deschamps@mats-deschamps.com.
